The Tonasea Subsector is subsector P of the Dark River Sector. It is dominated by the Tonasean Empire for which it is named. The highest TL is F at Raya and the highest population is 50 billion at Kruff.

Tarehyor is involved in a global war which has decimated the population and left no government. Although the starport is Empire controlled, conditions warrant posting travel code Amber.

On Seatatot, gravitic cities support a fishing industry. The only land based city is at the starport. Seatatot depends on Raya for its gravitic technology.

The bases at Fadonia and Kitod belong to Zytillo.

Heywow has a spectacular view of the gasgiant which it orbits. Each domed city on that world has a separate government and its own starport facilities.

Sodak is a Tonasean penal colony.

Raya is the high tech center of the Tonasean Empire. Most Tonasean warships are constructed at that world.

The scout base at Pebaset is owned by the Tonasean Empire.
